

ENGINEERING YOUR FUTURE

Do you need some Direction?

Does the following sound interesting?

- ◇ Motorsport
- ◇ Engineering
- ◇ Teamwork
- ◇ Project management

Do you want to work with other people, gain qualifications and have some fun?

Who is it for?

Young men and women aged between 16 and 19, not currently in employment, education or training.

What will I do?

You will build a **Gravity Racer** kit car to enter in a race as part of a team.

You will learn skills in:

- ◇ marketing
- ◇ contacting sponsors
- ◇ sourcing parts to complete the kit
- ◇ building and assembling the car
- ◇ testing and racing
- ◇ keeping a video diary

How long will it take?

12 hours a week, for approximately 12 weeks.

Where will it lead?

You will learn a variety of skills, and be able to add the experience to your CV. The work you do on this project will be entered for a recognised qualification, showing what you have learnt. Employers and educators value projects such as this, that show them what you are capable of.

We will work with you to cover units in:

- ◇ Literacy
- ◇ Maths
- ◇ Teamwork
- ◇ Engineering

You'll be surprised how valuable these skills will be in the future.
